Engineered Seal Products Acquires Swan Engineering And Supply Co., Inc.

Engineered Seal Products (ESP) announced the acquisition of Swan Engineering And Supply CO., INC., of Kansas City, KS as of January 1, 2022. Swan Engineering (www.swanengineering.com) is a full-stocking seal distributor founded in 1954, initially selling products to the aerospace and railroad industries and later expanding into construction, mining, plant maintenance, fleet services, and military markets.

Priding themselves on quality service combined with technical expertise, the dedicated staff at Swan Engineering has the knowledge, proficiency, and training when it comes to supporting the vast array of sealing products.

“This acquisition is another step that accelerates ESP’s expansion into new markets and regions,” stated Jeff Hamilton, CEO of Engineered Seal Products. “We’re acquiring a very talented team of technical experts. We plan to invest in the Swan Engineering brand, serve and grow their customer base, and extend ESP’s capabilities.”

About ESP

Engineered Seal Products (www.espint.com) is a 100% employee-owned company based in Cedar Rapids, Iowa that has served the industrial OEM markets for over 50 years. ESP excels in providing leading-edge customer support through its in-house application engineering, component design, seal expertise, tube fabrication, contract assembly, logistics, and VMI services. With branches in Davenport, IA, Arlington, TX, Shenzhen, China, and Chennai, India, ESP is committed to providing total support to its customer’s global service needs.

Along with ESP’s core values of Expertise, Service and Passion, and technical support unmatched in the market and partnered with the best suppliers in the industry today, ESP and Swan Engineering are committed to providing the best solutions for critical seal and component applications.
